# Kakapo Line

The start is opposite the blue "Queen Charlotte Drive" sign just after to U Lockit Storage Units. On the right hand side of the road is a Cabbage tree, 5m past this there is a pink tag down to the right leading to the first two traps. After checking these, get back on the walking track heading towards Shakespeare Bay.

# Kakaruwai Line

Starting at the end of Ranui Street, take the lower Picton-Waikawa walking track heading towards Picton (left) and walk towards Rohe Drive. You will find the first trap in behind flaxes by the stream (RHS) just before Rohe Drive. Once this trap is done, turn around and head back to Ranui Street taking the steeper track option, towards Picton. The next trap (602) is on your left before the stream by the tree. Head back to the upper Picton/Waikawa track and turn right onto Ridge track then 1st left onto Sue's MTB Loop Track. (Do NOT go up the GDS bike track).

# Kokako

Park at the playground at the start of the Victoria Domain. Start heading up the Scout walking track (Korimako trap line). Just past (I think) trap 167 on the Korimako line (RHS) you will see pink marker triangles pointing up the bank. You have to jump over a creek to get there - BE CAREFUL! Head up the hill. Pink markers should guide you, traversing the bush until you meet the tarmac road/Joseph Sullivan Drive. Head up the tarmac road. Pink markers will point into the left, back into the bush to traverse about 100m above the first line.

# Pipiwharaura Line

Park at the Sussex Street playground. As you look up the tarmac road, there is a track that heads into the bush, uphill from the main Picton-Waikawa walking track. There is a wooden sign hidden in the flax bush. Follow the bike track and head up towards the water tower (but you don't reach it) and then back to the Picton marina, ending on the Picton/Waikawa Walking Track.

# Ponga Line

This Line starts at the signed turnoff to The WW2 Structure on The Link Pathway. Park at the small carpark on your right as you cross over The Wedge Ridge along the Queen Charlotte Drive. Start walking along the Link Pathway and the Ponga Line starts after the WW2 structure signage. The traps that you'll pass before this sign as you walk along belong to the Rimu line. **Note - after trap #871 follow the track to the lookout (not the blue markers downhill). 3x box traps still need swapping to Victor traps.**

# Riroriro Line

This line is on the Kanuka Bike Track on the west side of the Snout Track.

Trap 1235, 1972 and 113, which might look like the first traps, actually belong to the Weka line, so no need to check.

# Ruru Line

Start at Leicester Street. (Please note there are also ten monitoring locations numbered 1 – 10. These are NOT trap locations). When you walk up the bike track from Leicester St. make sure that you DO NOT take the first track to the left. Instead continue straight up the hill, this track will then curve to the left. The first trap 1917 is on the RHS of this curve to the left.

# Tieke Line

This line is in two parts. The first section of the line starts on the Kereru Line - from the Waikawa end walk in. Tieke Line starts at trap # 1902 on the Kereru line. Head uphill following the pink markers. There are only 5 traps on this line and once complete, head back down the hill. Head to Ranui Street, the remainder of the traps start from the Kereru Line - trap #64. This is located before the stream, make your way past the box trap, cross the stream and the traps start there.

**Make your way straight down and you will then hit the GDS mountain bike track, turn left and this will lead to the main Picton/Waikawa walking track (Kereru Line), turn left again to get back to Ranui Street (past the horse paddock)**

# Totara Line

Start at the upper end of the Queen Charlotte Drive. All the traps for this line are on the downhill side (LHS) of the road. (When we gained permission to place these traps, we agreed to check them by bike, not by car nor by walking. MDC said that they would not want us crossing the road all the time so we should just check them while travelling downhill.) Travel to the top of the Wedge and down 80m towards Ngakuta Bay to find the first trap.

Note: Only record strikes on A24 traps if you reset the counters. **RECOMMENDED TO BE DONE BY BIKE / HIGH VIS MUST BE WORN**

# Induction Line

This line can start from either end but the traps here are listed with the Sussex Street Playground end first. Finishing up at the St Johns Ambulance Station area near the Picton marina car park. If walking from The Pebble; walk along the Picton Waikawa walking track past the Sussex Street Playground. When you get to the end of Lincoln Street, the track splits slightly- take the Upper Track around the top of the green and the traps start from here. They finish when you reach the St Johns Ambulance Carpark.
